

# TELEMUS GROUP

## HARRY FOSTER

Vice President

Harry Foster is a retired Air Force officer with extensive experience in nuclear operations, targeting, long-range conventional strike, stealth planning and employment, electronic warfare, cyber warfare, space operations, command and control, missile defense, and logistics. He was an instructor pilot in the F-16, B-1, and B-2 with combat tours in Desert Storm, Southern Watch, Allied Force and Enduring Freedom.

Prior to joining the Telemus Group, Mr. Foster served as the Director of the Chief of Staff of the Air Force-chartered "Blue Horizons" Program and the Center for Strategy and Technology at Air University. After joining Air

University's civilian faculty at the Center for Strategy and Technology in 2010, Mr. Foster developed the Blue Horizons program into an advanced classified study on competitive strategy and military-technical competition. Over the course of his 21-year career in uniform, Mr. Foster served multiple tours in the Air Staff's strategically focused CHECKMATE office and as Director of Strategy for U.S. Central Command's Combined Forces Air Component Commander.

An avid wargamer, Mr. Foster has been a team leader in more than 40 Department of Defense wargames since 2003. He has also advised panels exploring conventional and nuclear command and control in cyber-opposed environments, served on the U.S. Strategic Command Strategic Advisory Group's Science and Technology Panel, and assisted the Air Force A-9 and the Air Force Research Lab's Developmental Planning Office in creating alternative concepts for anti-access/area denial environments. He holds graduate degrees from the Harvard Kennedy School, the School of Advanced Air and Space Studies, Marine Corps University, and the Air War College.
